Seven Easy Steps To a New Countertop

Follow these easy steps to get an estimate from Chuck Bousquet's Kitchens Baths, and More

Step 1: Grab a pencil, measuring tape and/or ruler.

Step 2: Using the space below, roughly draw the shape of your countertop space. Your drawing does not need to be to scale.

Step 3: Using you tape measure, measure in inches the dimensions of all the countertop space you would like surfaced. Put the measurements on your rough drawing as you go. Please indicate the approximate location of any required cut-outs for undermount or drop-in sinks, drop-in cooktops, etc. (See example below). If you would like a backsplash, please indicate where you would like it by drawing a double line along that length of countertop. It is best to round up to the nearest 1/2" for pricing purposes.

Step 4: Mark each top (top 1, top 2 etc.)

Step 5: Show rounded corners and any special details if required

Step 6: In the section for special instruction, indicate product (I. E. Corian®, Silestone®), color and any other information that will help us quote your top as accurately as possible.

Step 7: For an estimate, fax your drawing to (860)928-3937
